The Principals Corner

February 2, 2011

Dear Ranches Academy Families,

We are off to a great start on The Jazz Reading Contest! The kids are reading tons! Every Monday the students that read are eligible to win some great prizes.

If the school meets our goal, several staff members will participate in Sumo Wrestling. We are all anticipating this fun event!

Thank you for your support in our new pick-up procedures! Every day runs smoothly and everyone is safe. The safety committee appreciates your follow through.

February is peak flu season! The teachers have asked that I remind parents to keep your child home when he or she is sick. Currently we have bronchitis, strep, and stomach illnesses spreading. Please refer to the Symptom Exclusion Policy if you are unsure whether or not to send your child to school. The main violations we are seeing at school are students coming to school when it has not been 24 hours symptom free. Thank you for your support in this manner.

I wanted to thank the parents for completing the school surveys. The information gathered is very useful to the school staff and council. We want our school to be exceptional and we strive for the best!

Thank you,

Susie Scherer

Director

After School Craft

Dear Ranches Families,

We are having an after-school craft for all K-6th grade students. We will be attempting to decorate the school for Valentine's Day! This will be happening on Monday, Feb. 7th from 2:45 – 3:30pm! If you would like your child to attend please make arrangements for them to leave school promptly at 3:30. Thank you!

Also, we are in need of a few parent volunteers with this activity. If you wouldn't mind helping us out please contact Stacey Hazard stacey@theranches.com 801-789-2996 or Brigitte Reall blreall@yahoo.com 801-789-5406.

Thank you!

Science Fair

The Ranches Academy Science Fair is Tuesday, February 8, 2011. Families and guests are invited to tour the fair and experience the touch table from 5:30-6:00. Awards will begin at 6:00 in the gym.

All students are invited to participate!

All K-3 students that choose to do a project will receive an award at the evening science fair. K-3 students should bring their project to school on Tuesday, February 8. It will be "judged" during school hours. They will then set up their project in the gym in preparation for the evening fair. Please see the January school newsletter for information about how to do a science fair project.

4th grade students have done projects in class. If they come to the evening fair, they will receive recognition.

5th-6th grade students will have their projects judged before the actual fair. They should check with their teacher to know what day to bring their project to school. On February 8, they will set up their projects in the gym for everyone to view during the evening fair. The ten 5th-6th grade projects will represent our school at the Charter District science fair on Feb 24, 2011 at UVU will be announced at the evening science fair.

If you have questions please contact Wendy Ford wendy_g_ford@yahoo.com or Christie Buxton christie@gobuxton.com

Free School Wide Skate Night

Free School wide Skate Night! Friday, Feb 25th from 5-8pm Look for the flyers to come home soon!
